WATER FILTERS

CALFRESH C & CALFRESH CR

CalFresh C delivers filtered drinking and cooking water on demand. This filtration kit features a separate drinking water tap and a compact, under-sink cartridge housing. The fine carbon grade and small mesh structure of the Fresh C cartridge ensures the highest chlorine reduction is achieved. Recommended for filtration of sediment, dirt, discolouration, unpleasant taste and smell, chlorine, organic material, bacteria, cysts and heavy metals – CalFresh C means filtered water at the touch of a tap.

CalFresh CR delivers filtered drinking and cooking water on demand. This filtration kit features a separate drinking water tap and a compact, under-sink cartridge housing. The carbon/resin cartridge ensures a reduction of bad tastes, chlorine, odour and organic chemicals. This filter will also reduce scale, scum and heavy metals.

Housing height	310mm
Housing diameter	75mm
Tap height	200mm
Tap reach	75mm
Filter cartridge replacement	Fresh C (carbon block) or Fresh CR (Carbon/resin) both 10" x 2.5" O
Maximum working pressure	8 bar (112 psi)
