WATER FILTERS

CALHOUSE S & CALHOUSE SC

Improve your home drinking water instantly with CalHouse S. This drinking water filter kit is the perfect choice for connecting directly to an existing household water tap, with the added convenience of a compact, under-sink cartridge housing. CalHouse S is specially designed for use with CalHouse S, easy-change, water filter cartridges. The wound filter cartridges have an effective matrix for trapping particles within the special media. Sediment, dirt and discolouration are removed to give an endless supply of filtered water.

The CalHouse SC drinking water filter connects directly to an existing household water tap and features a compact, under-sink cartridge housing. The House SC cartridge has a special wound and carbon matrix, designed for trapping sediment and dirt. Contaminants are effectively reduced to improve drinking water taste and smell. Also recommended for combatting problems with water discolouration, chlorine, organic materials and heavy metals. CalHouse SC delivers filtered water on demand.

| | |
|------------------------------|--|
